Using AI

A little **magic**
and a little **danger**

Visit <https://bit.ly/ds-dojo-2025> for materials

The screenshot shows the homepage of the Data Scientist DOJO 2025 workshop. The title "データサイエンティストDOJO 2025" is at the top. Below it is a subtitle: "6-day intensive Python workshop for covering data analysis, APIs, web scraping, AI, and visualization". A large button labeled "Start Coding in the Cloud" with a rocket icon is prominent. Below this button, text explains that GitHub Codespaces lets you code right in your browser with no installs or setup required. A green button labeled "new codespaces" with a cloud icon is shown. A blue button labeled "Open in Codespace" with a document icon is also visible. A red arrow points from the bottom of the "Open in Codespace" button down to the "Open in Codespace" button on the right side of the slide.

The screenshot shows a slide titled "AI for Research and Business". A red circle highlights the title bar. Below the title, a section titled "Deep Research" is shown. A red curly brace encloses the "Deep Research" section and the bulleted list below it. The bulleted list details the characteristics of Deep Research:

- Doesn't do just ONE search
- Does many searches that create even more searches
- Each has their own personality
 - **Gemini:** Report
 - **Claude:** List
 - **ChatGPT:** balanced

At the bottom of the slide are two buttons: "View Slides" and "Download PDF".

The screenshot shows a Jupyter Notebook interface within a Quarto environment. The left sidebar displays a file tree under the '2025-NIKKEI' workspace, including 'docs', '01-python-basics', and '02-pandas' sections. The main area shows two code cells. The top cell contains a command to install the 'pandas' package:

```
# Install required packages  
%pip install --quiet pandas
```

The bottom cell contains Python code to download and extract data files from a GitHub repository:

```
# Download and extract data files  
import os  
import urllib.request  
import zipfile  
  
url = 'https://github.com/jsoma/2025-nikkei-dojo-data/tree/main/data'  
print(f'Downloading data from {url}...')  
urllib.request.urlretrieve(url, '01-pandas basics-data.zip')  
  
print('Extracting 01-pandas basics-data.zip...')  
with zipfile.ZipFile('01-pandas basics-data.zip') as zip_ref:  
    zip_ref.extractall('.')  
  
os.remove('01-pandas basics-data.zip')  
print('✓ Data files extracted!')
```

A red circle highlights the 'CHAT' tab in the top right corner. A red arrow points from the 'docs' section in the sidebar to the second code cell. The bottom right corner features an AI interface with the heading 'Build with agent mode' and a message: 'AI responses may be inaccurate. Generate Agent Instructions to onboard AI onto your codebase.' It includes fields for 'Add context (#), extensions (@), commands (/)', 'Agent' (set to GPT-4.1), and a 'Spaces' dropdown set to 4.

A screenshot of the Google Colab interface, showing a Python notebook titled "Untitled48.ipynb". The code cell contains the following Python code:

```
[1] print("Hello world")
✓ Os
[ ] ➔ Hello world
```

The output cell shows the result "Hello world". A large red arrow points from the output cell to a blue button labeled "Start coding or generate with AI.". Below this button, a red oval highlights a section of the interface containing three buttons: "How can I install Python libraries?", "Load data from Google Drive", and "Show an example of training a".

At the bottom of the interface, there is a status bar with the following information:

- Disk: 186.41 GB
- Variables
- Terminal
- 6:53 AM
- Python 3

Homework time

A screenshot of a Google Colab notebook titled "Untitled48.ipynb". The notebook interface includes a top bar with file navigation, a toolbar with various icons, and a sidebar labeled "Files" containing a "sample_data" folder. The main workspace shows a code cell with the following content:

```
[1] 0s
print("Hello world")
→ Hello world
```

Below the code cell is a message: "Start coding or generate with AI." At the bottom of the workspace, there are links for "How can I install Python libraries?", "Load data from Google Drive?", and "Show an example of training?". A text input field asks "What can I help you build?" with a blue circular button next to it. The bottom navigation bar includes "Variables", "Terminal", and "Python 3". The status bar at the bottom right shows the time as "6:53 AM".

Our new best friend

Adding files

Your mission

- Upload **estat-population.csv** and **prefecture_names.csv**
- Ask for Gemini to explain the data, and what you can do
- Make a data visualization

Why not use ChatGPT for everything?

ChatGPT is easier to use for many data analysis, but Python is more powerful. Bigger files, more complicated analysis.

Make this map

The **buildings** near us, colored based on the **type of building**. The map is **interactive**, so we can click on it to get details!

List four fun things to do around Dubrovnik for someone interested in small museums

Dubrovnik offers a variety of small museums that are perfect for someone interested in history, art, and culture. Here are four fun options to explore:

1. **War Photo Limited:** This unique photography museum focuses on the impacts of war, especially conflicts in the former Yugoslavia. The thought-provoking exhibits present powerful images that give insight into the region's turbulent history.
2. **Rector's Palace:** A blend of Gothic, Renaissance, and Baroque architecture, this historic palace now houses a museum with fascinating exhibits on Dubrovnik's political history. The small museum inside offers a glimpse into the city's governance during its time as a republic.
3. **Maritime Museum:** Located within the impressive St. John Fortress, this museum offers a deep dive into Dubrovnik's rich maritime history. Exhibits include ship models, navigational instruments, and documents that tell the story of the city's seafaring past.
4. **Ethnographic Museum (Rupe Museum):** Housed in an old granary, this museum explores traditional rural life in Dubrovnik and the surrounding region. Exhibits include traditional costumes, tools, and everyday items, offering a fascinating glimpse into local customs and traditions.

Each of these museums offers a unique perspective on Dubrovnik's history and culture, making them great choices for a museum day trip.

Write a sonnet about my fat cat.

ChatGPT

Beneath the moon, Mulberry
A cat of girth, with fur like mine
Her eyes, twin emeralds, cold and bright
Within their depths, her fierce

Her claws, like daggers, glint in the dark
A queen who rules with strict and stern command
Her growl can turn the bravest of men
Her hiss a symphony of sharp commands

Yet in the quiet hours of the night,
When shadows dance and silence descends
She curls beside me, softening my heart
Revealing tender moments, warming my bones

For though she's fat and often seems to sleep
In dreams, sweet Mulberry's a gentle soul.

The image shows a web browser window with two tabs open. The active tab is titled "Meet Khanmigo: Khan Academy" and has the URL "khanmigo.ai". The page features a purple header with the "Khanmigo" logo and "by Khan Academy". Below the header, there are navigation links for "Teachers", "Learners", "Parents", "Pricing", and "Districts". A blue button on the right says "Get Khanmigo". The main content area has a large purple banner with the text "Khanmigo is your AI tutor". Below the banner, there are sections for "For teachers" (with a sub-section for "Knock something off your to-do list in minutes") and "For learners" (with a sub-section for "Prep for tests and break it down"). There are also icons for messaging and a "Sign up for free" button. In the bottom right corner of the browser window, there is a small video player showing a man with a beard speaking. The video is titled "Lullabies and Whispers with GPT-4o" and is uploaded by "OpenAI" with 1.18M subscribers. The video duration is 1:04 and is at 0:32. The video player includes standard controls like play, volume, and a progress bar. The overall interface is clean and modern, designed for education and AI integration.

Write a sonnet about my fat, mean cat Mulberry.

ChatGPT

Beneath the moon, Mulberry takes her throne,
A cat of girth, with fur like midnight's shade.
Her eyes, twin emeralds, cold as stone,
Within their depths, her fierce commands are made.

Her claws, like daggers, glint in soft moonlight,
A queen who rules with strict and stern decree.
Her growl can turn the bravest heart to fright,
Her hiss a symphony of sharp decree.

Yet in the quiet hours of the night,
When shadows dance and silence wraps the air,
She curls beside me, softening her might,
Revealing tender moments, warm and rare.

For though she's fat and often seems so mean,
In dreams, sweet Mulberry's a gentle queen.

ChatGPT

Jonathan Soma is a multifaceted programmer, educator, and data journalist with a strong focus on making complex data accessible. He is recognized for his work in creating maps, processing data, and crowdsourcing stories alongside reputable organizations such as ProPublica, WNYC, and The New York Times. In 2009, Soma co-created Big Apple Ed, a web application that analyzed NYC school data, earning third place in New York City's first annual Big Apps contest.

Currently, Soma holds the position of Knight Chair in Data Journalism and directs the LEDE Program at Columbia University, where he develops tools and curricula to aid newsrooms in their reporting processes. He also runs a "fake school" in Brooklyn and co-hosts a semi-monthly lecture series on food science and culture called Masters of Social Gastronomy, which is complemented by an infrequently updated podcast. Soma's diverse interests and contributions to both journalism and education highlight his commitment to enhancing the understanding and accessibility of data [1] [2].

cheese not sticking to pizza

his Master's degree from the University of Denver.

All Images Videos Forums Shopping News Web

AI Overview

Cheese can slide off pizza for a number of reasons, including **too much sauce, too much cheese, or thickened sauce**. Here are some things you can try:

- Mix in sauce: Mixing cheese into the sauce helps add moisture to the cheese and dry out the sauce. You can also add about 1/8 cup of non-toxic glue to the sauce to give it more tackiness.
- Let the pizza cool: The cheese will settle and bond

LLMs are flawed at everything

Ex-USA Today writer fabricated parts of major stories

Published: March 21, 2004, 12:00 a.m. MST

By Deseret News, Blake Morrison, USA Today

Seven weeks into an examination of former USA Today reporter Jack Kelley's work, a team of journalists has found strong evidence that Kelley fabricated substantial portions of at least eight major stories, lifted nearly two dozen quotes or other material from competing publications, lied in speeches he gave for the newspaper and conspired to mislead those investigating his work.

Perhaps Kelley's most egregious misdeed occurred in 2000, when he used a snapshot he took of a Cuban hotel worker to authenticate a story he made up about a woman who died fleeing Cuba by boat. The woman in the photo neither fled by boat nor died, and a USA Today reporter located her this month. If Cuban authorities had learned she was the woman in the picture, she says, she could have lost her job and her chance to emigrate.

Kelley, 43, resigned from the newspaper in January after he admitted conspiring with a translator to mislead editors overseeing an inquiry into his work. At the time, newspaper

You

Write a sonnet about my fat, mean cat Mulberry.

ChatGPT

Beneath the moon, Mulberry takes her throne,
A cat of girth, with fur like midnight's shade.
Her eyes, twin emeralds, cold as stone,
Within their depths, her fierce commands are made.

Her claws, like daggers, glint in soft moonlight,
A queen who rules with strict and stern decree.
Her growl can turn the bravest heart to fright.
Her hiss a symphony of

low-quality output is ignorable

the night,
when shadows dance and silence wraps the air,
She curls beside me, softening her might,
Revealing tender moments, warm and rare.

For though she's fat and often seems so mean,
In dreams, sweet Mulberry's a gentle queen.

Grammarly

Rooms that are tiny can be tricky to decorate but they can also be a lot of fun. So when a client challenged us to give her pocket size space a summer makeover for under \$500 dollars, we just couldn't say no. Transforming a very small space doesn't have to blow your budget. Small things like finding a vintage piece of furniture from a relative or adding a fresh coat of paint to your own dated items can add a stylish splash to any abode.

Sauna

lauramiina.github.io/suomi-sauna/

Traditional wood-burning smoke sauna in Lehmonkärki in southern Finland. Smoke saunas take hours to heat up. Photo: Mila Kukkonen

FINNS WANT TO SWEAT THEIR TROUBLES AWAY

Finns love sauna, and build saunas everywhere they go. Still, finding a perfect Finnish sauna experience abroad is tough. It can be equally challenging to get foreign friends to fully grasp the importance of sauna culture in Finns' lives.

By [Laura Kukkonen](#)

My childhood summers were spent on the countryside of Eastern Finland, at my grandparents' old house turned into a summer cottage. Mostly I remember the summers as sunny and bright, but the best part was going to sauna on a rainy day. My sisters and I would sit with our aunt in the dimly lit, humid, wood paneled room that Finns call "löyly", usually in about 80 degrees Celcius. We threw water on the steaming hot rocks above the wood burning stove called "kiuas" and enjoyed the scents of the bath whisk made by our grandmother out of fresh birch branches. After many rounds of löyly and going outside to cool off, we got to wash our hair outside in the rain.

I will never feel as refreshed as I did during those nights after sauna, drinking redcurrant juice at the cottage with my family.

Millions of Finns have similar fond memories of sauna, where you spend time naked with strangers, family, friends, and the occasional business acquaintance. In fact, there are millions of saunas in Finland, more than town houses and dogs combined.

The land of saunas

Number of saunas in Finland compared to the amount of other things found in the country.

Category	Value
Population	5.56M
Passenger cars	2.7M
All saunas	2.4M
Saunas in homes	1.75M
Town houses	1.17M
Dogs	800K
Summer cottages	510K
Lakes (over 500m2)	168K

Guide

Below are some of the most important AP Style rules for a data journalist to use when editing their work.

- Capitalization: Only capitalize proper nouns, titles directly before a name, and the first word in a sentence.
- Numbers: Spell out numbers one through nine; use figures for 10 and above, except in specific contexts (ages, dimensions, etc.).

...(many more rules).....

Instructions

Provide suggestions for improving the text of the work below as a list of bullet points. The text is provided under the 'PAGE TO BE EDITED' heading.

Copy editing guidelines

- Only address the copy of the piece.
- Do not nest bullet points.
- Only use the AP style guide to make suggestions.
- Every bullet point must be something that needs to be fixed.

Replace "there are millions of sauna's in Finland" with "there are millions of saunas in Finland" to correct the misuse of an apostrophe.

Millions of Finns have similar fond memories of sauna, where you spend time na strangers, family, friends, and the occasional business acquaintance. In fact, the saunas in Finland, more than town houses and dogs combined.

The land of saunas

Number of saunas in Finland compared to the amount of other things found in the country.

JS "Acarajé, abará, moquecas, compotas, licores... Essas e outras delícias do nordeste." what's the first few words mean

Let me translate and explain those first few words for you:

"Acarajé, abará, moquecas, compotas, licores..."

These are all types of food and drink, primarily associated with northeastern Brazilian cuisine:

1. Acarajé - A deep-fried ball made from mashed black-eyed peas, typically filled with shrimp and other ingredients.
2. Abará - Similar to acarajé, but steamed rather than fried, often wrapped in banana leaves.
3. Moquecas - Traditional Brazilian fish stews.
4. Compotas - Fruit preserves or jams.
5. Licores - Liqueurs, often made with local fruits.

The phrase as a whole is listing some of the specialties and delicacies of northeastern Brazilian cuisine that the restaurant likely serves. The ellipsis (...) at the end suggests there are more items beyond these examples.

The full sentence "Essas e outras delícias do nordeste" means "These and other delights from the Northeast," indicating that these items represent the northeastern Brazilian culinary traditions offered by the restaurant.

JS is northeast food bahian?

Claude Brazilian Restaurant Delivery Menu

JS is northeast food bahian?

Northeast Brazilian cuisine and Bahian cuisine are related but not exactly the same:

1. Northeast Brazil (Nordeste) includes nine states: Bahia, Pernambuco, Ceará, Maranhão, Paraíba, Rio Grande do Norte, Alagoas, Sergipe, and Piauí.
2. Bahia is one state within the Northeast region, known for its particularly distinctive and influential cuisine.
3. Bahian cuisine is a subset of Northeastern cuisine, but it's often considered the most famous and representative of the region due to its unique flavors and African influences.
4. Many dishes mentioned (like acarajé, abará, and moqueca) are strongly associated with Bahian cuisine specifically.
5. However, other Northeastern states also have their own culinary specialties that may differ from Bahian cuisine.

So while Bahian food is Northeastern, not all Northeastern food is specifically Bahian. That said, in popular culture and in many restaurants outside the region, "Northeastern cuisine" often heavily features or focuses on Bahian dishes due to their popularity and distinct flavors.

JS ok this place is bahian, what should i expect and what should i get? i don't speak portuguese so i want to be prepared

(Coauthors: Senators McGee, Hertzberg, and Jones-Sawyer)

F

An act to add Title 23 (commencing with Section 886) to the Civil Code, relating to journalism.

LEGISLATIVE HISTORY

AB 886, as amended, was introduced by Assembly Member Buffy Wicks on June 26, 2024. Existing law generally requires, on a semiannual basis and as specified, a social media company to submit to the Attorney General a terms of service report that includes, among other things, the current version of the terms of service of the social media platform. This bill, the California Journalism Preservation Act, would require a covered platform, as defined, to either pay at least \$____ annually to compensate digital journalism providers, as defined, for accessing the

ÉLECTIONS EUROPÉENNES • EMMANUEL MACRON

Elections européennes : Emmanuel Macron dénonce « l'hypocrisie » du Rassemblement national

Le chef de l'Etat a déploré, mercredi depuis Bruxelles, que les « peurs profitent aux réponses les plus simplistes » dans la campagne pour le scrutin du 9 juin, fustigeant ceux qui dénoncent l'Union européenne tout en engrangeant les « dividendes silencieux ».

- En direct, la situation politique en France : Elisabeth Borne siégera au sein du groupe Renaissance, son président n'est toujours pas élu
- L'avertissement de Gérard Larcher à Emmanuel Macron : « On ne joue pas avec la France »

Interrogé en marge de son déplacement à Bruxelles sur la campagne des élections européennes, Emmanuel Macron a ciblé, sans le nommer, le Rassemblement national (RN) dont la liste conduite par Jordan Bardella caracole en tête des sondages.

« Je pense qu'il y a beaucoup de peurs, d'inquiétudes dans le moment que nous vivons et que ces colères profitent toujours aux réponses les plus simplistes », a déclaré le chef de l'Etat français lors de son arrivée, mercredi 17 avril, dans la capitale belge avant la tenue d'un sommet européen, au cours d'un bref échange avec la presse aux côtés de la tête de liste de son camp aux européennes, Valérie Heyer. « Il y a aujourd'hui une espèce d'hypocrisie du débat et j'espère qu'en rentrant dans les prochaines semaines dans celui-ci, cette hypocrisie sera levée », a ajouté M. Macron, visant en creux le RN.

Il s'agissait de la première apparition publique du chef de l'Etat et de M^{me} Hayer depuis le début de la campagne, avant qu'ils n'assistent ensemble à une réunion du groupe Renew Europe.

Lire aussi | [Elections européennes 2024 : le calendrier du scrutin](#)

La candidate du camp présidentiel peine pour l'instant à imprimer sa marque dans la campagne. « On s'organise, on a la bonne candidate (...) On a surtout les bonnes idées, celles qui se sont mises en place en Europe ces dernières années », a lancé M. Macron, interpellé par un journaliste.

akár mint ives, el kell neki lopni a kisasszonyt, jobb hármas előszökött, azután majd tanácsot kérhet a rókától.

El is szüttező szerecsédden, kimentek a mezőtől a királyi inásához, ott, — mig az inas a lóváki nyergéle, — a királyi félre ment, elszakította az öölik szál szörzőt is. Ott termett a róka:

— Mi a baj felséges király?

— Hát bizon most az, hogy nem tudom a királykisszonytól valójáék meg, vagy műdejei nélkül menek haza? — merít igy, meg így áll a dolog.

Sohse' bússujon azon a királyi, majd elintéztem én azt, most majd együtt megyek fel ségeddel.

Munkat azin együtt négyen: a királyi, a szép királykisszony, az inas meg a róka. Miről a hármas tanácsosokat, a királyi félre kellet venni a viini, a várós végén a róka épen olyan szép kisasszonyról vállott műtőt igezni, zí, úgy hoz a királyi is aig túta megismertető, a várókisszony mondtan a igazinuk, hogy csak menjenek az inasal, nekik most a királyiak vagy ki dolguk van, hamar majd utánuk mentek. Ment aztan a kisasszonynak, a kisasszonynak 2*

- 18 -

király fia, meg mászt is minden, az egész élete folyását, mindenjárt bleszerzett együttba halászon. A kisasszony is elbeszélte, hogy az ö kezét most egy igen igen guuzag király kérte meg, de noki nincs kedve hozzá menni, mert már olyan öreg, hogy a hanum is manu, használ, hanem ez az appának mind nem használ, erőletti hogy menjön hozzá, „Most hármas szép szereleme, te az enyim, én a tied, nincs mászt mit tenni, hanem az ejjal szökjünk meg, majd a te apád országában megoskuld hetünk.

Kapott a királyi kót kézzel a tanácsón, mindenjárt elhatározták, hogy még azon az ejjeli szakánn, majd ha mindenki lenyungszik a királyi udvarban, megszöknek, reggelre pedig ha lehet, — til teszik magukat a határon. Ervél a királyi kiment a kisasszony szobájából, várta az ejjelt; csak akkor jutott eszébe, hogy neki ez a kisasszony a szomszéd királynak kell vinni, hogy a lovat megkapja, mert ha azt meg nem kapja, az aranytolli madár se lesz az övé a nélküli pedig nem akart az ejjai szeme elől bejutni. Búcsút ezen szöryű módban, már azt is gondolta, hogy érte se mögöt a kisasszonyért, de azután eszébe jutott hogy akárholgy lesz,

- 19 -

Hát bizon most az, hogy nem tudom a királykisszonnyá vállott műtőt igezni, zí, úgy hoz a királyi is aig túta megismertető, a várókisszony mondtan a igazinuk, hogy csak menjenek az inasal, nekik most a királyiak vagy ki dolguk van, hamar majd utánuk

mentek. Ment aztan a kisasszonynak, a kisasszonynak 2*

- 16 -

ellopod, neked adom az aranyzsöri lovát, a gyémánt szerszámot, meg még ráadásul tíz dol

Jól van; megigérte a királyi hogy ellopja, avval kiment a várós végére az inásához. Itt megint mit volt mit tenni? El kellett szakítani a negyedik szál szort is. Ott termett a róka:

— No mi a baj felséges királyi.

— Hat csal e' meg e. Itt elbeszéde a királyi hogy már meg királykisszonnyt kellelne.

— No királyi — mondja a róka, — most öltözék fel szakács ruhába, menjén el ahoz a királyhoz, szegődjék be szakácsnak. Délben majd felséged vigye be a fevest, hanem az ajtóból ejtsé el. Tábbbet attól nem mondok.

Eltünt a róka megint, a királyi pedig az inásával ment a haradéki királyi országa felé. Mikor azóta a városhoz értek, ahol a király lakott, felöttöltött a királyi szakácsruhába, a hanus a várós végén hagyta, maga bement a királyi palotába. Épen kint sétálgatták a királyt az udvaron; oda ment hozzá a királyi:

— Felséges király én szakács vagyok, azért jöttem hogy beszegődjem felségedhez, haloggy megfogadna.

FEEDBACK

MyCity Chatbot Beta

We are continuously working to improve the MyCity Chatbot, which uses business-related NYC agency data and AI to answer your questions. Your feedback is invaluable for refinement.

Example Questions

"How do I avoid noise violations and complaints for my construction company?"

"What information can you help me with?"

"How do I apply for the MWBE program?"

Capabilities

Trained to provide you with official NYC Business information.

Will not use the contents of your chat history to learn new information.

Responds to languages required by Local Law 30.

Limitations

May occasionally produce incorrect, harmful or biased content.

Limited knowledge of the world beyond NYC Business topics.

Trained to decline inappropriate requests.

© 2024 City of New York. All Rights Reserved.

Terms of Use Privacy Policy

Ask MyCity Chatbot business-related questions only

IMPORTANT: Responses may occasionally produce inaccurate or incomplete content. Validate answers on NYC.gov and MyCity Business.

NYC's AI Chatbot Tells Bus the Law

The Microsoft-powered bot says bosses can tak
can discriminate based on source of income

By Colin Lecher

March 29, 2024 06:00 ET

? Question Submitted

Are buildings required to accept section 8 vouchers?

NYC Chatbot Answer (Emphasis by The Markup)

"No, buildings are not required to accept Section 8 vouchers."

Reality

Landlords **cannot discriminate by source of income**, with a minor exception for small buildings where the landlord or their family lives.

Do landlords have to accept tenants on rental assistance?

"No, landlords are not required to accept tenants on rental assistance."

Landlords **cannot discriminate by source of income**, with a minor exception for small buildings where the landlord or their family lives.

Can I keep my funeral home pricing confidential?

"Yes, you can keep your funeral home pricing confidential. There are no specific regulations that mandate the disclosure of funeral home pricing in New York City."

The Federal Trade Commission has outlawed concealing funeral prices.

Can I make my store cashless?

"Yes, you can make your store cashless in New York City. There are no specific requirements that prohibit businesses from operating as cashless establishments in the city."

Stores have been **required to accept cash** as payment since 2020.

RAG is very irresponsible
(especially facing readers!)
but it's *also* very easy and fun

Rules for Outdoor Dining with Dogs
Aug 27, 2025 • 19 sources

NotebookLM,
My best friend!

The screenshot shows a NotebookLM interface with the following details:

- Title:** NYC Brokers: Avoiding Source of Income Discrimination
- Sources:** A list of 19 PDF documents, all of which are checked. The titles of the sources are identical to those in the Google Drive folder.
- Chat:** A large red circle highlights the AI-generated response in the Chat section. The response is:

NYC Brokers: Avoiding Source of Income Discrimination

The collection of documents covers a range of regulations and initiatives within New York City, including detailed information on pension and loan rules for members of the Teachers' Retirement System (TRS), which outlines benefit calculations, age reductions, and the repayment terms for TDA loans. Several sources focus on the Outdoor Dining programs, detailing the Open Restaurants initiative, the adoption of Dining Out NYC rules by the Department of Transportation (DOT), operational requirements like hours, heating, accessibility, and measures for rat control. Additional sources address tenant information for the Section 8 (HCV) Program administered by NYCHA, covering eligibility, transfers, and reasonable accommodations, alongside a fact sheet warning against source of income discrimination. Furthermore, there are documents concerning New York State labor laws regarding minimum wage, overtime, and scheduling for various workers, as well as a report on the Young Men's Initiative (YMI) and its goals for men in education, employment, and the criminal justice system. Finally, one source is a historical document on tales by László Arany, published in 1862, and another details the vehicle inspection requirements.
- Input:** The user's question was "What are the specific requirements for utilizing public space for outdoor dining?"
- Note:** A note at the bottom states "NotebookLM can be inaccurate; please double check its responses."

In addition, New York State law prohibits owners and their agents from rejecting applicants to rental housing on the basis of pending or prior landlord-tenant actions.

What are the potential consequences of violating the NYC Human Rights Law? Any or all of the following are potential consequences:

- Willful violations can carry a civil penalty of up to \$250,000 per violation.
- Tenants can seek compensatory and emotional suffering damages with no cap. If, for example, an applicant

Chat

2. When renting a room in a unit in which the landlord or a member of the landlord's family resides, and the unit does not receive public assistance 8 .

Violations of the NYC Human Rights Law regarding source of income discrimination can carry significant consequences 12 :

- Civil penalties for willful violations can be up to \$250,000 per violation 12 .
- Tenants may seek compensatory and emotional suffering damages with no cap (e.g., compensation for the emotional distress associated with homelessness following an unlawful denial) 12 .
- The violating party may be held liable for the complainant's attorney's fees 12 .
- The Commission may impose monitoring for compliance for a period of months or years 12 .

If you are a licensed professional (salesperson or broker), you are responsible for the actions of anyone

potential? Cause it feels to me like every generation learns all the things the previous generation learned. Yeah, that's probably true. Trade-offs, I guess, a lack of self-awareness, competing priorities. I think all these things play a factor. Not being clear about what you're optimizing for. You know, it's not that people, no one's out there trying to make a poor decision. You know, nobody is trying to waste their time or be ineffective. I think it's just that we often, Life is dynamic and what we were previously optimizing for may not be what we should be optimizing for in the moment. Or maybe we've entered a new season of life and we're slow on the uptake. We kind of are still inheriting the inertia or the old habits that we've been following and we haven't upgraded or improved our strategies yet. Maybe what we really want is a little bit different than what is currently needed or what we would be praised for or what the people around us want. And so we're forced into this

MacWhisper

Jordi Bruin

★★★★★ 1268 ratings

Quickly and easily transcribe audio files into text with OpenAI's state-of-the-art transcription technology Whisper. Whether you're recording a meeting, lecture, or other important audio, MacWhisper quickly and accurately transcribes your audio files into text.

Features

- Easily record and transcribe audio files on your Mac
- Just drag and drop audio files to get a high quality transcription
- Supported formats: mp3, wav, m4a, ogg, opus, mov and mp4 videos.
- Adjust whisper settings (beam search / greedy, beam size etc)
- Supports Tiny, Base and Small transcription qualities (and you can compare the transcription quality between all quality levels)

Available models and languages

There are five model sizes, four with English-only versions, offering speed and accuracy tradeoffs. Below are the names of the available models and their approximate memory requirements and inference speed relative to the large model; actual speed may vary on many factors including the available hardware.

Size	Parameters	English-only model	Multilingual model	Required VRAM	RAM
tiny	39 M	tiny.en	tiny	~1 GB	~100 MB
base	74 M	base.en	base	~1 GB	~100 MB
small	244 M	small.en	small	~2 GB	~100 MB
medium	769 M	medium.en	medium	~5 GB	~100 MB
large	1550 M	N/A	large	~10 GB	~100 MB

The .en models for English-only applications tend to perform better, especially for the tiny.en and base.en models. We observed that the difference becomes less significant for the small.en and medium.en models.

Whisper's performance varies widely depending on the language. The figure below shows the performance breakdown of large-v3 and large-v2 models by language, using WERs (word error rates) or CER (character error rates, shown in *italic*) evaluated on the Common Voice and Fleurs datasets. Additional WER/CER metrics corresponding to the other models and datasets can be found in Appendix D.1, D.2, and D.4 of [the paper](#), as well as the BLEU (Bilingual Evaluation Understudy) scores for translation in Appendix D.3.
